YOUR SAFETY MAKER

DUETTA
Twin Filter Half Mask
Mod. P/N 102530000

DUETTA is an ideal facepiece for use in paint and pesticide spraying and in the handling of chemical products. Thanks to a soft sealing flap, it seats comfortably on the face, whilst the rigid shell firmly holds the cartridges and evenly distributes their weight. **DUETTA** together with Spasciani snap-in cartridges series 2000 is the best value respirator. Filtering cartridges can moreover hold special pre-filters that preserve the particle filter element from a too fast clogging up when used in particularly dusty environments.

TECHNICAL INFORMATION

Breathing Resistance

Test Flow	Inhalation mbar		Exhalation mbar	
l/min	Requirement	Measured	Requirement	Measured
25 cycles/min X 2 l/cycles	2.0	0.3	3.0	2.4
30 l/min	0.5	OK		
95 l/min	1.3	OK		

INWARD LEAKAGE
Less than 2%.

LIMITATIONS FOR USE
Filter respirators cannot be used in environments where the oxygen content of the air is less than 17% in volume. Duetta Halfmask can only be used in conjunction with Spasciani filter cartridges series 2000. Please refer to the relevant notice for more information.

CLASSIFICATION
Halfmask to **EN 140:1998** meeting with Directive **89/868/EC (PPE)**.

MARKING
 C E
